About the FCC Registration Number (FRN)

An FRN is a 10-digit number that is assigned to a business or individual registering with the FCC. This unique FRN is used to identify the registrant's business dealings with the FCC. The FCC will use the FRN to determine if all of a registrant's fees have been paid. You are encouraged to register with the Commission as soon as you expect to do business with the FCC. This way, you will be ready to access any of the electronic licensing systems without having to go through the registration process at the time you submit an application.

For more information, see [Public Notice DA 01-2452](#).

- 2. If you do not know your FRN, you can search by call sign here:  
<https://wireless2.fcc.gov/UlsApp/UlsSearch/searchLicense.jsp>

3. If you do not know your password, you must create an FCC Username Account and associate your FRN with that account.

4. After logging in, locate the “My Licenses” section. You will see a green box with a link to download your Official License Copy.
